Subject COAST GUARD OLD BASE ST LOUIS

Diana,  
Here is the RI/FS (misnamed) report. It is actually a report on demolition  
activities at the site. This included Asbestos and PCB testing in the soil.

Frank,  
Did you do a Phase I in 1991, when this was still part of your AOR? You  
wouldn't have kept a copy that you can send to Diana, would you? It seems  
that our Real Property Branch sent all our records to GSA, for disposal of the  
property.
